JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

The sanitary conditions of Port Limon and vicinity are good. Only 3 deaths during the week, as follows: September 4, 1 stillborn; September 6, an adult 28 years of age, from hepatitis, and 1 premature birth.

Respectfully,

J. GREY THOMAS,

Acting Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,

U. S. Marine-Hospital Service.

CUBA.

Reports from Cienfuegos, Casilda, and Santa Cruz del Sur.

CIENFUEGOS, CUBA, *September 17, 1900.*

SIR: I have the honor to report that during the week ended September 15, 1900, 16 deaths have occurred in this city from the following causes: Paludism, 3; tuberculosis, 2; old age, 2; remittent fever, 1; traumatic tetanus, 1; asphyxia, 1; cerebral hemorrhage, 1; congestional hemorrhage, 1; wounds, 1; diphtheria, 1; heart disease, 1; pernicious fever, 1. Of these deaths 2 occurred in the civil hospital. Death rate, 20.86. The case of yellow fever reported by cable on the 8th instant, a report of which has been mailed you, is now convalescing, and will be discharged from the lazaretto in a day or two. The precautions taken with the case were apparently very complete, as nine days have elapsed since its removal and isolation without any further cases being reported.

Thirteen vessels, crew and passengers have been inspected during the week. Thirteen bills of health have been issued during the week. Two alien steerage passengers landed at this port during the week. Thirteen pieces of baggage from Havana, arriving at this port on Menendez steamer, were disinfected and so labeled.

Casilda.—Dr. Alejandro Cantero reports 5 deaths in the city of Trinidad during the week ended September 8 and 4 vessels inspected. Four deaths in city of Trinidad during the week ended September 15. Inspected 4 vessels during week. Health of port good.

Santa Cruz del Sur.—Dr. Juan R. Xiques reports no deaths in that port during the week, no contagious diseases, health of port good. Inspected 5 vessels at that port during the week.

Respectfully,

F. E. TROTTER,

Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,

U. S. Marine-Hospital Service.

Case of yellow fever at Cienfuegos.

CIENFUEGOS, CUBA, *September 22, 1900.*

SIR: Case of yellow fever removed from civil hospital and isolated in lazaretto yesterday. Details by letter.

Respectfully,

TROTTER,

Quarantine Officer.

The SURGEON-GENERAL,

U. S. Marine-Hospital Service.
